Detecting Functions

Search Modes	Gold Mode - High Yield, General, Extra Deep Ground Type - Normal, Difficult, Severe
Noise Cancel	Auto and Manual (256 channels)
Sensitivity	Level (1-20)
Volume	Range (1-20) Limit (1-20)
Threshold Level	Level (1-50) Pitch (1-100)
Audio Smoothing	Off, Low, High
Ground Balance	Auto and Manual (Quick-Trak trigger button)

Mapping Functions

GPS Coordinates	DMS (degrees, minutes, seconds), DM (degrees, minutes)
Zoom Levels	10x10, 20x20, 100x100 (metres/yards per cell)
GeoStore	100 FindPoints, 100 Waypoints, 10 GeoHunts
GPS Engine	u-blox Neo-7 (56 channels, SBAS: WAAS, EGNOS, MSAS)

Physical Specifications

Coil (GPZ 14)	14" x 13" Super-D Configuration with skidplate (waterproof to 1 m/3 ft)
Coil (GPZ 19)	19" x 18" Super-D Configuration with skidplate (waterproof to 1 m/3 ft)
Battery	Li-Ion Rechargeable Pack (7.2V DC, 72Wh)
Audio Output	6.3 mm (1/4") non waterproof socket, Wi-Stream wireless signal transmission
Headphones	KOSS UR 30 100 ohm with 6.3 mm plug (1/4-inch) (non waterproof)
Wireless Audio	WM 12 module (14 channels) Connect one or more WM 12 modules
Display	Full colour LCD (320 x 240 pixels)
Detector Weight	3.32 kg (7.32 lb) (Including GPZ 14 coil, skidplate and 72Wh battery)
Detector Length	Collapsed: 1170 mm (46.1") Laid flat, packed position: 1304 mm (51.3") Extended: 1526 mm (60.1") Laid flat, packed position: 1651 mm (65.0")
Harness	PRO-SWING 45 with additional J-strut, cross piece and GA 10 Guide Arm

Other

Key Technologies	ZVT, Super-D, GPSi, Wi-Stream, W8
PC Connection	USB interface for XChange 2 PC software
XChange 2	Software supplied on CD (Windows XP, Vista, 7, 8 compatible)
Software Updates	GPZ 7000 and WM 12 upgradeable via XChange 2 (with internet connection)
Detector Menu	Page Navigation (6 Detect pages, 5 Map pages) with built-in Guide Sequences
User Interface Languages	English Español Português Français Русский العربية
Documentation	Getting Started Guide and Field Guides Instruction Manual (on CD), XChange 2 Manual (on CD)

Main Detector Features - Ultra High Performance

This exciting detector has many versatile features including wireless audio, integrated GPS and a weatherproof platform.

Extreme Gold Depth

GPZ 7000 detects up to 40%* deeper than the GPX series. Old gold fields are new again, thanks to the revolutionary ZVT technology.

Maximum Gold Sensitivity

The incredible sensitivity of the GPZ 7000 with the Super-D coil gives you the ultimate advantage in the field.

Precision Ground Balance

The GPZ 7000 accurately 'balances' and automatically 'tracks' to even the most severe ground conditions, with ease.

Enhanced Noise Immunity

With 256 Noise Cancel channels, the GPZ 7000 picks up less atmospheric noise. Listen to the gold, not the noise interference!

* When compared to the average performance of the GPX 5000 in typical environments. Actual performance depends on prevailing conditions.

Simple Menu System

The easy-to-use Menu Pages group similar functions together under Detect and Map sections, with all settings quickly accessible.

Wireless Audio Freedom

Detect without your headphones attached to the detector. Use the in-built speaker, the supplied headphones, or your favourite headphones.

GPS Locating & PC Mapping

See your location and log gold finds as you detect. With the built-in GPS you'll efficiently cover more ground and won't miss a nugget!

Waterproof Coil to 1 m (3 ft)†

The GPZ 14 coil is waterproof and submersible to a depth of 1 m (3 ft). You can easily detect rivers and shorelines with no fuss!

† GPZ 7000 detector is waterproof only. GPZ 14 coil is fully waterproof to 1 m (3 ft). WM 12 is not waterproof or weatherproof.

next generation gold rush!

Cookie - WA

I love this 7000

Dave - QLD

3.7 Ounce Nugget with GPZ 19 coil

John - WA

Gold Detecting Made Easy - Key Gold Settings

Just set the Gold Mode and Ground Type to suit your detecting conditions and you're ready to go.

Gold Mode

High Yield (default setting)
(Typically $\leq 0.1-50$ grams)

General
(Typically 5-50 grams)

Extra Deep
(Typically ≥ 50 grams)

Ground Type

Normal
For soils that have lower levels of mineralization, this mode will maximise target response signals. If the detector is noisy over the ground then switch to Difficult. This is a great mode for deep cache hunting.

Difficult (default setting)
Goldfields typically have very mineralized soil. This mode handles these conditions, enabling you to detect in more locations with a minimum amount of false signals masking target responses.

Severe
Some locations have extreme levels of mineralization. This ground type, combined with High Yield gold mode, enables detecting in challenging conditions and previously undetectable areas.

Zero Voltage Transmission

A QUANTUM LEAP in gold performance with breakthrough new technology from Bruce Candy.

ZVT technology goes to the next level for all serious gold prospectors, providing substantially improved depth.

19-inch Accessory Coil

Find More Gold – Deeper & Faster!
The GPZ 19 Super-D coil maximises the performance of your GPZ 7000 and gives a significant depth increase over the standard GPZ 14 coil for nuggets above 1 gram.

- Deeper Detection
- More Ground Coverage
- Less Ground Noise
- Waterproof to 1 m (3 ft)
- Super-D Coil Technology

(The GPZ 19 coil is an accessory and must be purchased separately from the GPZ 7000 detector)

<p>Continuous Wave (CW - VLF) High frequencies are more sensitive to small gold</p>	<p>Pulse Induction (PI) High power to detect deep in mineralised ground</p>	<p>Zero Voltage Transmission (ZVT) Higher frequency and greater power for maximum depth and increased sensitivity</p>
