

**GO★FIND** SERIES  
METAL DETECTORS

**GO WILD. FIND ADVENTURE.**

Go wild and find adventure with the **all-new** GO-FIND series.

# GO★FIND SERIES

METAL DETECTORS

GO★FIND 22

GO★FIND 44

GO★FIND 66

Solve mysteries and find fortunes with the all-new GO-FIND series by Minelab — a compact detector for beginners that's big on performance. With its four Find Modes, Treasure View and Easy-Trak technology the GO-FINDs will have you detecting like a pro in just minutes. And recovering more finds time after time. It's the perfect detector to ignite your passion for detecting whether you're searching on land or in the water.

## THE SMART DETECTOR CHECKLIST

- COMPACT:** Size Matters. Simply unfold and away you go.
- LIGHTWEIGHT:** 20% Lighter\* - Detect all day. And the next.
- EASY-TRAK:** From parks to beaches. Just set and go.
- SMARTPHONE APP\*:** Remote control. Now that's handy.
- COIN ID MAGIC\*:** Show me the money. Even if it's buried.
- TREASURE VIEW\*:** Trash or treasure? Know before you dig.
- BLUETOOTH AUDIO\*:** Wireless detecting? Music to your ears.

\* Based on similar competitor offerings \* Only available on GO-FIND 44 or 66 models

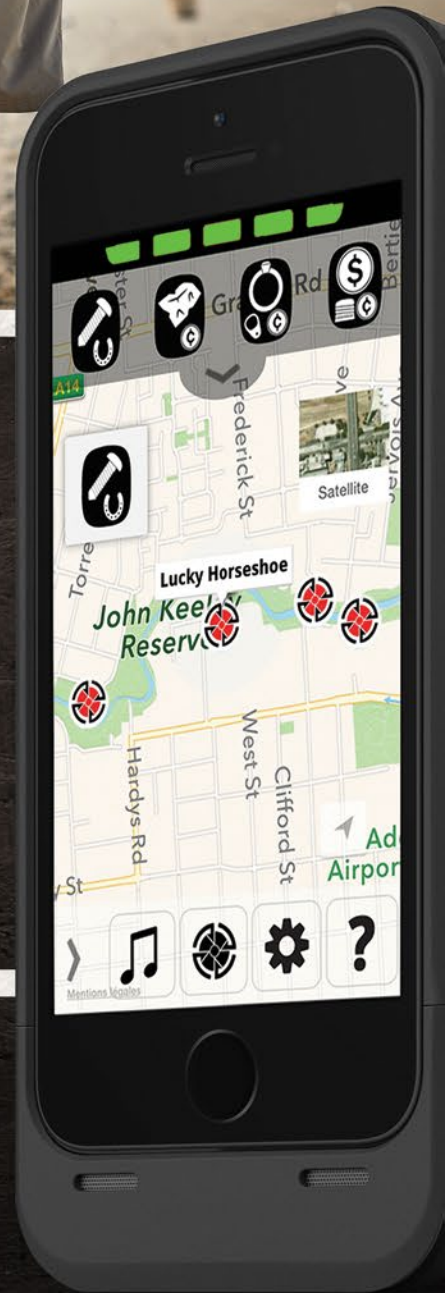

**FIND MODES:** Icons flash to tell you what you've found. You can even tell GO-FIND what sets of objects you want to target by selecting up to four pre-set modes.

## SMARTPHONE APP\*: REMOTE CONTROL OVER YOUR DETECTOR. NOW THAT'S HANDY.

Even though you're detecting miles away from anywhere, you can stay connected with the GO-FIND app. Imagine listening to your favourite tracks, or recording your finds while you hunt. It's all possible with the GO-FIND app, which is perfectly in tune with your detector.

What's more Coin ID Magic and its four find modes helps you identify what type of coins you have found — even while they're still buried in the ground. GO-FIND with smartphone app: Welcome to the future.

## TREASURE VIEW\*: TRASH OR TREASURE? KNOW BEFORE YOU DIG.

When it comes to detecting, there's really only two things you want to know: is it trash or is it treasure? So with this in mind, Minelab designed the GO-FIND to feature the amazing Treasure View LEDs, which light up and change colour to help you identify what you've found before you dig.

Green lights indicate non-iron objects like coins or jewelry, while red lights indicate iron objects such as nails or keys. GO-FIND with Treasure View: It's detecting made simple.

## ACCESSORIES. DETECT IN STYLE.
